Contents

Part 1 *issued* May 1979

The Bacterial Nucleoid. By K. Kleppe, S. Övrebö and I. Lossius 1

Characteristics of a Lipolytic and Fatty Acid-requiring *Butyrivibrio* sp. Isolated from the Ovine Rumen. By G. Hazlewood and R. M. C. Dawson 15

Cytology of *Sclerotinia sclerotiorum* and Related Species. By J. A.-L. Wong and H. J. Willetts 29

The Preparation and Chemical Composition of Fractions from *Aspergillus fumigatus* Wall and Protoplasts Possessing Antigenic Activity. By V. M. Hearn and D. W. R. Mackenzie 35

Effects of *Azotobacter chroococcum* on Barley Seed Germination and Seedling Development. By S. H. T. Harper and J. M. Lynch 45

Host Modification of Chlamydiae: Differential Infectivity for Cell Monolayers of Chlamydiae Grown in Eggs and Monolayers. By I. Allan and J. H. Pearce . 53

Host Modification of Chlamydiae: Presence of an Egg Antigen on the Surface of Chlamydiae Grown in the Chick Embryo. By I. Allen and J. H. Pearce . . 61

The Binding of Enzymes to Fungal β-Glucans. By A. G. Dickerson and R. C. F. Baker 67

Carbohydrate Metabolism in *Rhizobium trifolii*: Identification and Symbiotic Properties of Mutants. By C. W. Ronson and S. B. Primrose 77

Attraction of Nematodes to Living Mycelium of Nematophagous Fungi. ByH. -B. Jansson and B. Nordbring-Hertz 89

Numerical Taxonomy of *Actinomadura* and Related Actinomycetes. By M. Goodfellow, G. Alderson and J. Lacey 95

Genetic and Biochemical Studies of Mutants of *Penicillium chrysogenum* Impaired in Penicillin Production. By P. J. M. Normansell, I. D. Normansell and G. Holt 113

Origin of Deoxyuridine Triphosphate in *Bacillus subtilis* infected with Bacteriophage PBS1. By B. K. Rima and I. Takahashi 127

Generalized Transduction in *Rhizobium leguminosarum*. By V. Buchanan-Wollaston 135

Cell Wall Turnover During Myxospore Formation in *Myxococcus xanthus*. By H. Dawson and M. V. Jones 143

The Pools of Ribosomal Proteins and Ribosomal Ribonucleic Acids During Relaxed Control of *Escherichia coli* A19 (Hfr, *rel met rns*). By J. Sykes and E. Metcalf . 149

α-Galactoside Transport in an Alkaline-tolerant Strain of *Bacillus circulans*. By A. A. Guffanti, L. G. Monti, R. Blanco, D. Ozick and T. A. Krulwich . . 161

Differences Between the Anthranilate-5-phosphoribosylpyrophosphate Phosphoribosyltransferases of *Salmonella typhimurium* Strains LT2 and LT7. By M. Dooley, R. Torget and E. Balbinder 171

SHORT COMMUNICATIONS

Effect of Piperacillin on D-Alanine Carboxypeptidase Activities from *Pseudomonas aeruginosa*. By H. SUGINAKA, M. SHIMATANI, M. OGAWA and S. KOTANI . . 181

Studies on the Interaction of *Mycobacterium microti* and *Mycobacterium lepraemurium* with Mouse Polymorphonuclear Leucocytes. By C. C. SMITH, R. M. BARR and J. ALEXANDER 185

Catabolism of Gentisic Acid by Two Strains of *Bacillus stearothermophilus*. By J. S. CLARK and J. A. BUSWELL 191

Glucan-binding Proteins of *Streptococcus mutans* Serotype *c*. By R. R. B. RUSSELL 197

High and Low Toxin Production by a Non-toxigenic Strain of *Clostridium botulinum* Type C Following Infection with Type C Phages of Different Passage History. By K. OGUMA and H. IIDA 203

Storage Death at Low Temperature (−18 °C) of Strains of *Escherichia coli* with Different Repair Capacities. By H.-D. MENNIGMANN 207

Part 2 *issued* June 1979

Sodium Dodecyl Sulphate–Polyacrylamide Gel Electrophoresis of Cell-surface Proteins as an Aid to the Identification of the *Bacteroides fragilis* Group. By I. R. POXTON and R. BROWN 211

Characterization of Peptidoglycan from the Cyanelles of *Cyanophora paradoxa*. By A. AITKEN and R. Y. STANIER 219

The Effect of Transition Metal Ions on the Resistance of Bacterial Spores to Hydrogen Peroxide and to Heat. By W. M. WAITES, C. E. BAYLISS, N. R. KING and A. M. C. DAVIES 225

The Study of Homogeneous Populations of *Caulobacter* Stalked (Mother) Cells. By U. SWOBODA and C. S. DOW 235

Fusion of the *lac* Genes to the Proximal Promoters of the *deo* Operon of *Escherichia coli* K12. By R. S. BUXTON 241

Transduction of Fimbriation Demonstrating Common Ancestry in FIRN Strains of *Salmonella typhimurium*. By D. C. OLD and J. P. DUGUID 251

Ultrastructure of *Cytophaga johnsonae* and *C. aquatilis* by Freeze-etching. By W. R. STROHL 261

Genetic Instability of Sporulation-associated Characters in a *Bacillus subtilis* Mutant: Analysis of the Segregation Pattern and Genetic Studies. By J. ZUCCA and G. BALASSA 269

Genetic Instability of Sporulation-associated Characters in a *Bacillus subtilis* Mutant: Relationship between Sporulation, Segregation and the Synthesis of Extracellular Enzymes (Kinetic Studies). By J. ZUCCA, G. BALASSA, J. C. F. SOUSA and M. T. SILVA 283

Effect of Bacteriophage C5 on Ultraviolet Light Survival in *Pseudomonas aeruginosa*. By C. D. DIRCKZE, P. R. LEHRBACH and B. T. O. LEE 297

Evidence of an Indigenous Microbiota (Yeast) in the Dry Valleys of Antarctica. By H. S. VISHNIAC and W. P. HEMPFLING 301

Trimethylamine Oxide: A Terminal Electron Acceptor in Anaerobic Respiration of Bacteria. By A. R. STRØM, J. A. OLAFSEN and H. LARSEN 315

Location of Binding Sites on Common Type 1 Fimbriae from *Escherichia coli*. By G. SWEENEY and J. H. FREER 321

The Role of Manganese in Growth and Sporulation of *Bacillus subtilis*. By N. VASANTHA and E. FREESE 329

Thermosensory Behaviour in *Paramecium tetraurelia*: a Quantitative Assay and Some Factors that Influence Thermal Avoidance. By T. HENNESSEY and D. L. NELSON 337

Selective Advantage of a *Spirillum* sp. in a Carbon-limited Environment. Accumulation of Poly-β-hydroxybutyric Acid and its Role in Starvation. By A. MATIN, C. VELDHUIS, V. STEGEMAN and M. VEENHUIS 349

The Control of the Synthesis of Isocitrate Lyase in a Thermophilic Bacillus. By M. W. GRIFFITHS 357

Nutrient Requirement for the Degradation of Cellulose to Methane by a Mixed Population of Anaerobes. By A. W. KHAN, T. M. TROTTIER, G B. PATEL and S. M. MARTIN 365

SHORT COMMUNICATIONS

Glutamine Synthetase and Glutamate Synthase Activities During Growth and Sporulation in *Bacillus subtilis*. By F. L. PAN and J. G. COOTE 373

Influence of Oxygen Tension on Nitrate Reduction by a *Klebsiella* sp. Growing in Chemostat Culture. By G. M. DUNN, R. A. HERBERT and C. M. BROWN . 379

Reduction of Perturbations in Leucine Incorporation in Synchronous Cultures of *Schizosaccharomyces pombe* Made by Elutriation. By J. CREANOR and J. M. MITCHISON 385

The Components of *Mycoplasma salivarium* and its Growth Medium that are Responsible for Film Formation. By H. ICHIMARU and M. NAKAMURA . . . 389

Characterization of Ca^{2+}-ATPase Activity in *Streptomyces griseus*. By V. S. BANSAL, J. N. VERMA, A. MAHMOOD and G. K. KHULLER 393

Isolation of Atypical Lipopolysaccharides from Purified Cell Walls of *Pseudomonas cepacia*. By J. M. MANNIELLO, H. HEYMANN and F. W. ADAIR . . . 397

Description of Strains of *Peptostreptococcus anaerobius* Isolated from Subcutaneous Abscesses in Cats. By D. N. LOVE, R. F. JONES and M. BAILEY . . . 401

An Examination of *Rhizobium leguminosarum* for the Production of Extracellular and Periplasmic Proteins. By A. R. GLENN and M. J. DILWORTH 405

Factors Influencing Filament Length of *Methanospirillum hungatii*. By G. B. PATEL, L. A. ROTH and G. D. SPROTT 411
